

floatingfoam

FLOATINGFOAM®

Inspired by nature

Immerse yourself for relaxation inspired by nature. Thanks to its wavelike effect, very similar to the one you get from a water mattress, you can let yourself go and experience a form of comfort that

seems to emerge spontaneously, without artificial mechanisms, as if you were really immersed in nature itself.

Density

Unit of measure **kg/m³**
Standard **UNI EN ISO 845**
Tolerance **+5%**

Compression

load-bearing capacity **40%**
Unit of measure **Kilopascal**
Standard **UNI EN ISO 3386-1**
Tolerance **+15%**

Bearing characteristics and sinking resistance

25% **60** 40% **90** 65% **150**

Unit of measure **Newton**
Standard **UNI EN ISO 2439B**
Tolerance **+15%**

Load at break

>100

Unit of measure **Kilopascal**
Standard **DIN 53571**

Block height (max)

60

Unit of measure **cm**

Block length (max)

210

Unit of measure **cm**

Permanent compression deformation 50%

<3

Unit of measure **%**
Standard **DIN 53572**

Elongation at break

>200

Unit of measure **%**
Standard **DIN 53571**

Block weight (max)

200

Unit of measure **cm**

Air passage

160

Unit of measure **lt/min**
Standard **Internal**
