Chi Siamo
Who we are

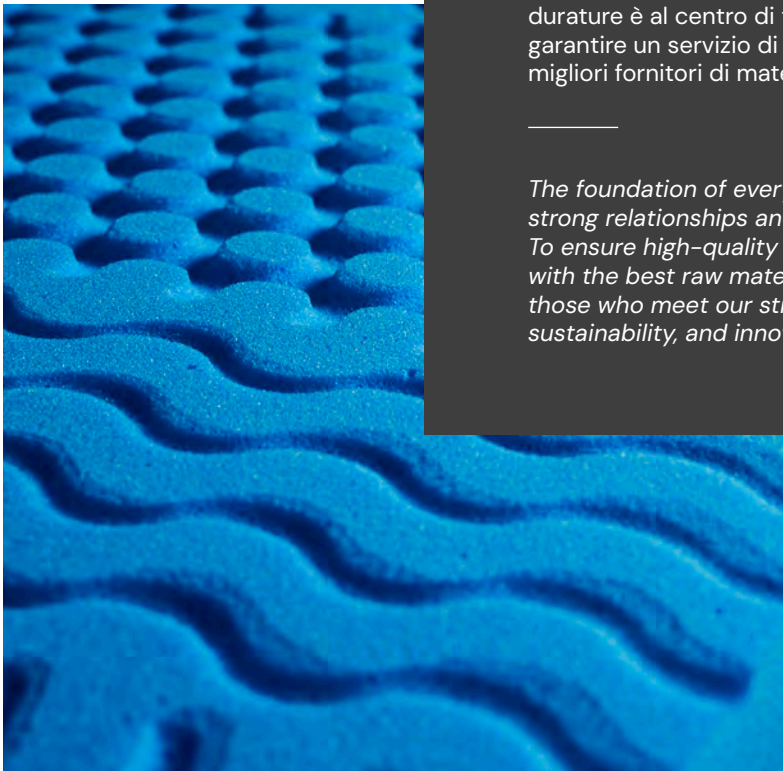

LOIMA SRL nasce nel 1981 con una vocazione specifica: diventare leader nella trasformazione del poliuretano espanso e punto di riferimento per l'industria del mobile.

Loima srl was founded in 1981 with a clear purpose: to become a leader in the transformation of flexible polyurethane foam and a key player in furniture industry.

Partner & Relazioni
Partners & Relationships

A large background image on the left side of the page showing a blue, textured surface with a repeating pattern of small, rounded, wave-like shapes, resembling a mattress or a specialized fabric.

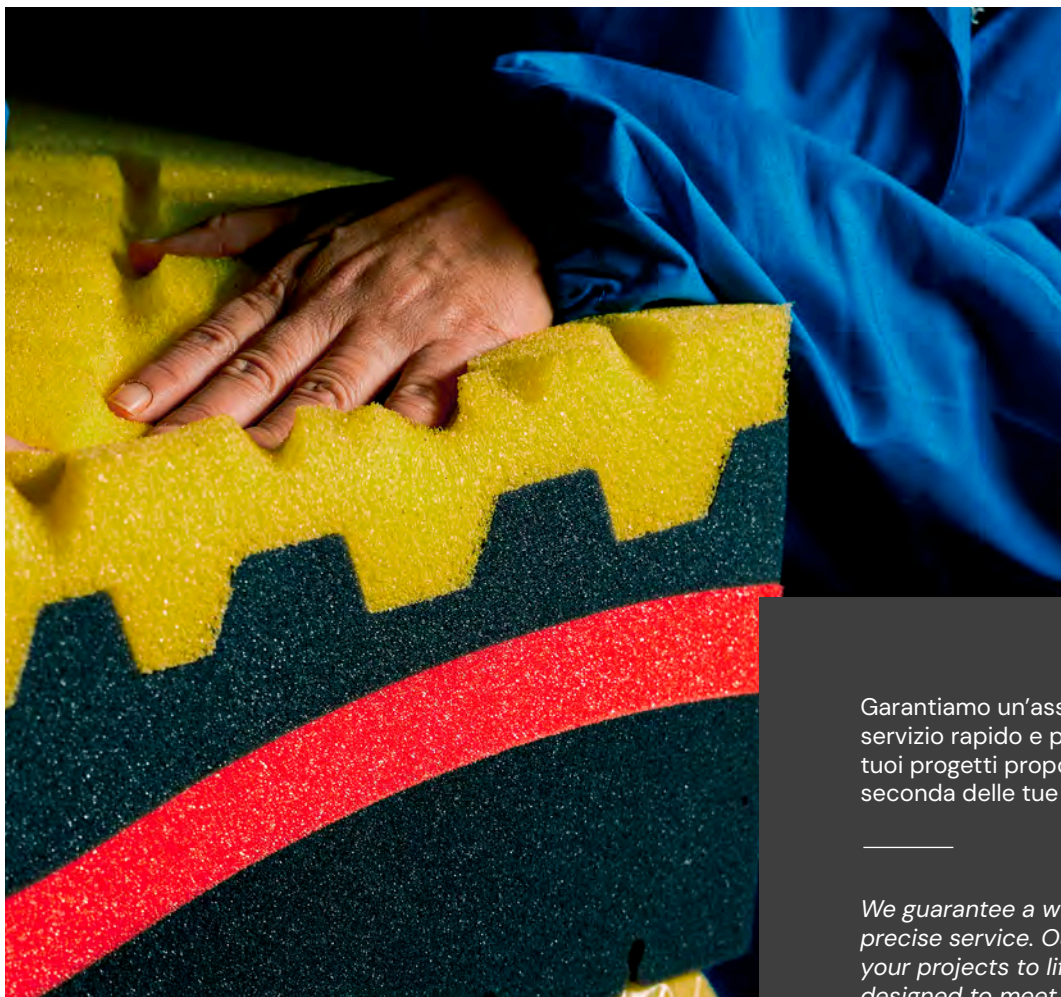

La costruzione di relazioni solide e partnership durature è al centro di tutto ciò che facciamo. Per garantire un servizio di elevata qualità ci affidiamo ai migliori fornitori di materia prima.

The foundation of everything we do lies in creating strong relationships and lasting partnerships. To ensure high-quality service, we collaborate with the best raw material suppliers, selecting only those who meet our strict standards for excellence, sustainability, and innovation.

**Personalizzazione &
Soluzioni su misura**
*Customization &
Tailor-Made Solutions*

Garantiamo un'assortita gamma di prodotti e un servizio rapido e preciso. Ti aiutiamo a creare i tuoi progetti proponendoti soluzioni su misura a seconda delle tue esigenze.

We guarantee a wide range of products and a fast, precise service. Our goal is to assist you in bringing your projects to life, offering customized solutions designed to meet your specific needs.

**Qualità Artigianale
& Innovazione**
*Craftsmanship
& Innovation*

Per ottenere la massima qualità utilizziamo programmi CAD-CAM 3D sempre aggiornati e disponiamo dei macchinari più innovativi per la realizzazione di qualsiasi prodotto in poliuretano espanso.

To achieve the highest quality standards, we use up-to-date CAD-CAM 3D software and operate with the most advanced machinery, ensuring the precise and efficient production of any type of flexible polyurethane foam product.

Prodotti
Products

I Nostri Prodotti – Our Products

Materassi – Mattresses

Realizziamo una vasta gamma di materassi, tutti personalizzabili in base alle tue richieste. Ogni soluzione di confort e di prezzo è studiata nei minimi dettagli dal nostro ufficio tecnico e commerciale. Nel nostro magazzino di materie prime sono disponibili centinaia di densità diverse per rispondere alle più svariate esigenze del mercato.

We offer a wide range of mattresses, all customized to meet your specific needs. Every comfort and pricing solution is meticulously designed by our technical and commercial team to ensure the best possible experience. In our raw materials warehouse, we stock hundreds of different densities, allowing us to accommodate the most diverse market demands.

Guanciali – Pillows

Offriamo diverse tipologie di guanciali realizzati con materiali innovativi, traspiranti, vegetali e in memory. Su specifica richiesta del cliente, inoltre, creiamo scavature con disegni personalizzati per qualsiasi tipologia di guanciale.

We offer a wide variety of pillows, crafted from innovative, breathable, and plant-based materials, as well as memory foam. Upon specific customer request, we also create custom carvings with personalized designs, suitable for any type of pillow.

Box – Box Structures

Realizziamo varie tipologie di box in cui vengono utilizzati i classici molleggi tradizionali o le innovative molle insacchettate. Quest'ultime sono l'evoluzione della classica molla, dove ogni supporto è indipendente e grazie alla lavorazione a zone differenziate si adatta perfettamente alle diverse pressioni esercitate dal corpo.

We manufacture various types of box structures, incorporating either traditional spring systems or innovative pocket springs. Pocket springs represent the next evolution of classic spring technology, where each support is independent. This ensures optimal adaptation to the body's varying pressure points, providing enhanced comfort and support.

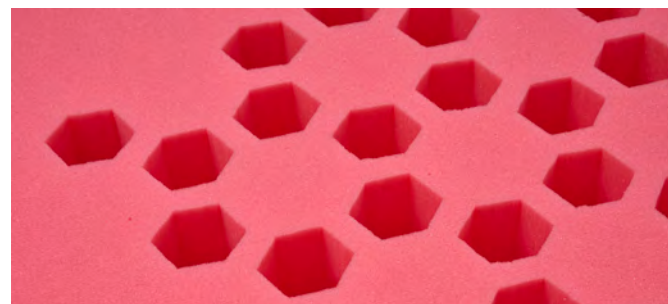

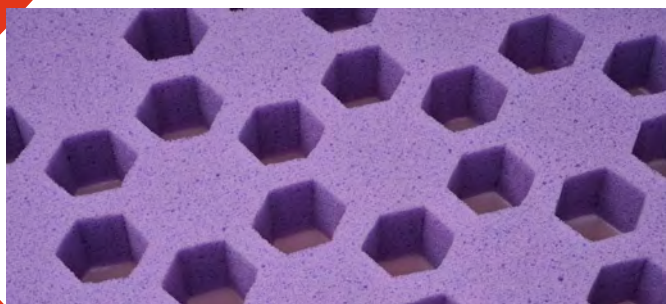

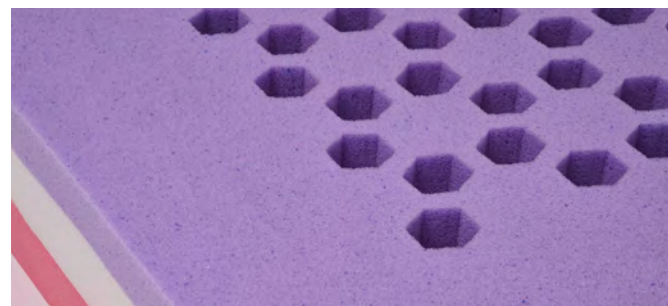

Altri settori – Other Sectors

Siamo sempre stati un punto di riferimento nella trasformazione del poliuretano espanso. Oltre al settore del bedding realizziamo articoli per diversi settori tra cui: imbottiti per il salotto, prima infanzia, lastre rettilinee e sagomate, piantoni, arredo ufficio, arredo giardino, materassi antidecubito sanitari, calzaturiero ed altro.

We have always been a leader in the transformation of flexible polyurethane foam. In addition to the bedding industry, we manufacture products for various sectors, including: Upholstery for living rooms, Infant care products, Straight and contoured foam sheets, Structural columns, Office furniture, Garden furniture, Medical-grade anti-decubitus mattresses, Footwear industry solutions, and more.

Alveo

Struttura Materasso – Mattress Structure

Geometrie personalizzabili
Customizable geometries

Disponibile in diverse versioni
Available in several models

Altezza materasso: h 20 cm
Mattress height: 20 cm

Un nuovo concetto di materasso dove la traspirabilità del prodotto diventa una priorità. Alveo non utilizza materiali traspiranti ma crea un flusso di aria lavorando sulle geometrie della struttura. Il concetto alla base di Alveo è lasciare che il nostro corpo sia avvolto da un flusso d'aria continuo generato dal movimento del corpo stesso. I canali verticali consentono a Loima di modificare la portanza degli espansi e creare dei veri e propri condotti di aerazione meccanica che possono fungere da "ventilatori" meccanici. Gli strati che compongono

A new mattress concept where breathability becomes a priority. Alveo does not rely on breathable materials but instead generates airflow through structural geometry. The core idea behind Alveo is to allow the body to be enveloped in a continuous air stream, created by its own movement. Vertical channels allow Loima to adjust the load-bearing properties of the foams, forming true mechanical air ducts that act as "mechanical ventilators." The layers that make up Alveo

Alveo servono a creare il connubio perfetto fra supporto e comfort. Inoltre Alveo sfrutta le alveolature presenti per generare zone areate ma anche zone a portanze differenziate. La costruzione del materasso può seguire le scelte dettate dal cliente, potendo utilizzare qualsiasi materiale (interno o esterno, topper) su cui sarà possibile creare gli alveoli dedicati all'aerazione. Il cliente può personalizzare il tutto con simboli, forme o tutto ciò che meglio lo definisce.

ensure the perfect balance between support and comfort. Additionally, Alveo takes advantage of its alveolar design to generate ventilated zones and differentiated support areas. The mattress construction can be customized according to client preferences, allowing for the use of any material (internal or external, topper) in which dedicated aeration cells can be created. Clients can fully personalize their mattress with symbols, shapes, or any details that best represent them.

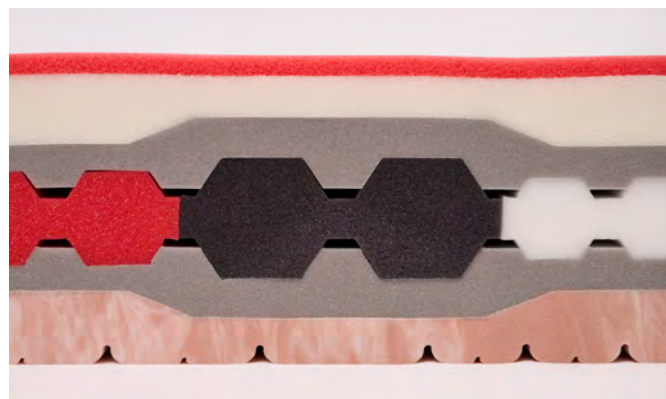

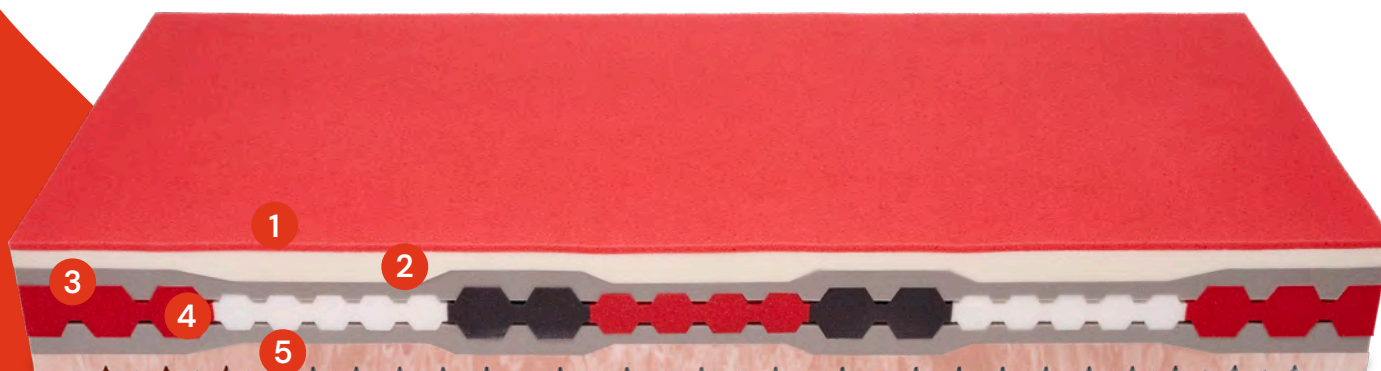

1 Memory foam con particelle in gel per una **sensazione rinfrescante**
Memory foam with gel particles for a refreshing sensation

2 Waterfoam ad **alta elasticità** per favorire un miglior sostegno del corpo
High-elasticity waterfoam to promote better body support

3 Waterfoam firm ad **alta portanza**
High-support firm waterfoam

Esagono

Struttura Materasso – Mattress Structure

7 Zone Differenziate
7 separate areas

Disponibile in diverse versioni
Available in several models

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 23 cm
Mattress height: 23 cm

- 1 Waterfoam superfresh **altamente traspirante**
Waterfoam superfresh highly breathable

- 2 Memory foam **ergonomico ed automodellante**
Memory foam ergonomic and self-contouring

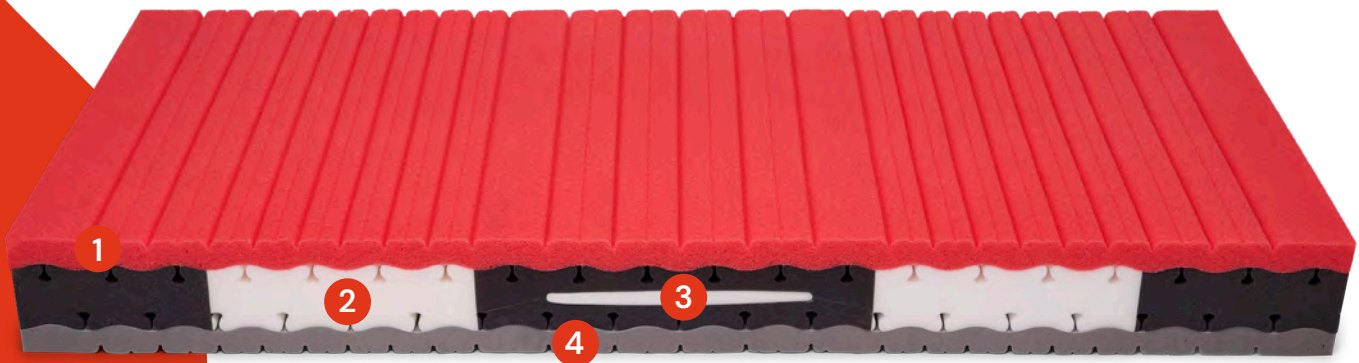

- 3 Waterfoam ad alta elasticità per favorire un **miglior sostegno del corpo**
Waterfoam high elasticity for better support

- 4 Waterfoam a **zone differenziate** per un ottimale distribuzione del peso
Waterfoam separate areas for optimal weight distribution

- 5 Waterfoam massage soft
Waterfoam massage soft

I Nostri Prodotti - *Our Products*

Black Panther

Struttura Materasso – Mattress Structure

5 Zone Differenziate
5 separate areas

Disponibile in diverse versioni
Available in several models

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 20,5 cm
Mattress height: 20,5 cm

1 Waterfoam reticolato ad **altissima traspirabilità**
Cross-linked and highly breathable waterfoam

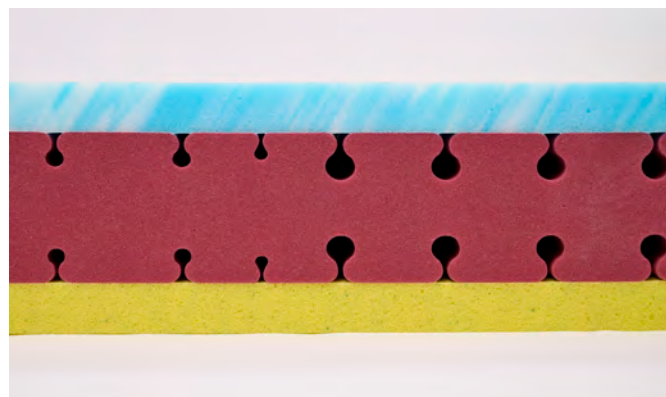

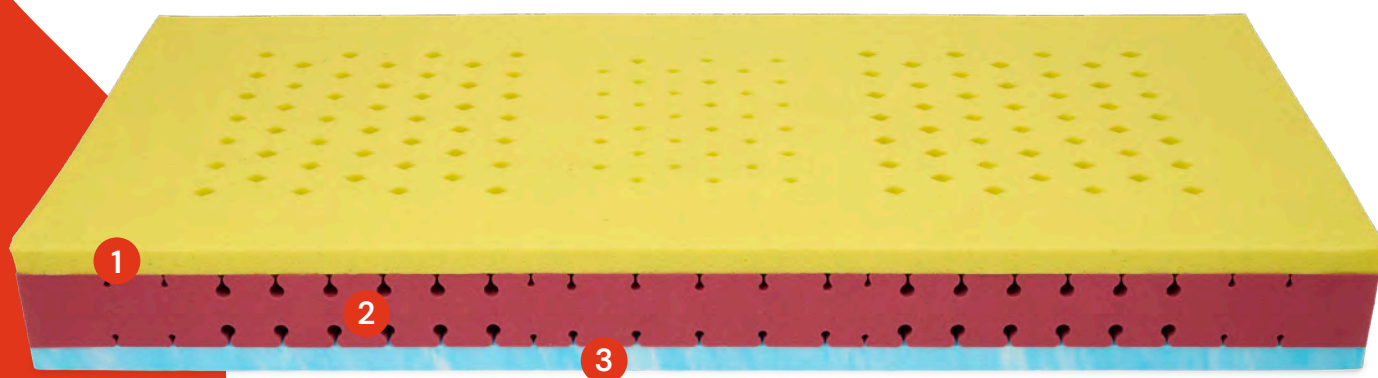

2 Waterfoam a 5 zone differenziate per il **sostegno della colonna vertebrale**
Waterfoam 5 separate areas for spine support

3 Waterfoam firm a **rinforzo della zona bacino**
Waterfoam firm for better support of the pelvis area

4 Waterfoam medium per un'ottimale **distribuzione del peso**
Waterfoam medium for optimal weight distribution

I Nostri Prodotti - *Our Products*

3S Rombi

Struttura Materasso - *Mattress Structure*

7 Zone Differenziate
7 separate areas

Disponibile in diverse versioni
Available in several models

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 21 cm
Mattress height: 21 cm

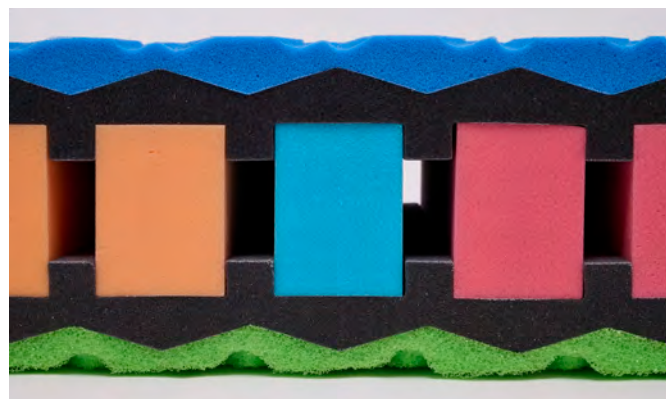

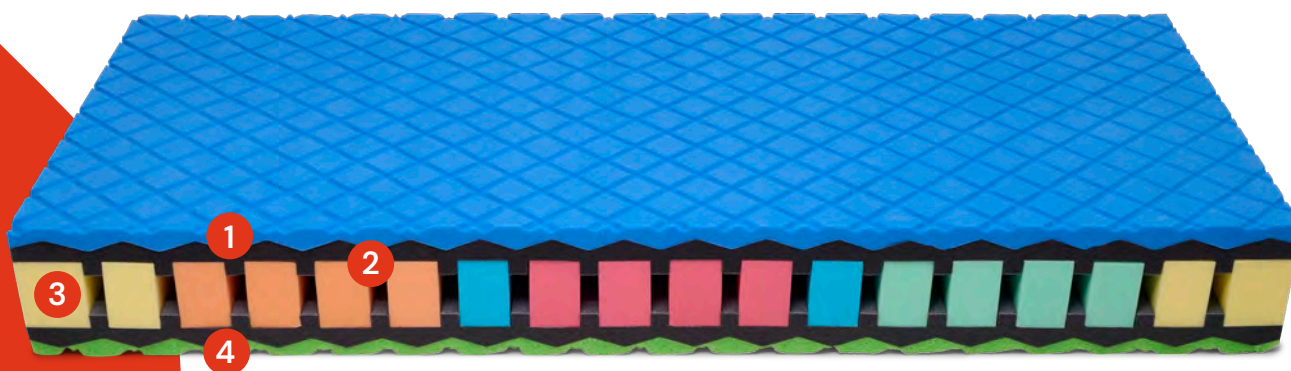

1 Memory foam con microparticelle di **gel rinfrescante**
Memory foam with micro particles of cooling gel

2 Waterfoam ad **elevata elasticità**
Waterfoam high elasticity

3 Waterfoam supersoffice **traspirante**
Waterfoam supersoft and breathable

I Nostri Prodotti - *Our Products*

Platos

Struttura Materasso - Mattress Structure

7 Zone Differenziate
7 separate areas

Disponibile in diverse versioni
Available in several models

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 22 cm
Mattress height: 22 cm

- 1 Memory foam per un'ottimale **termoregolazione** del calore corporeo
Memory foam for optimal body heat thermoregulation

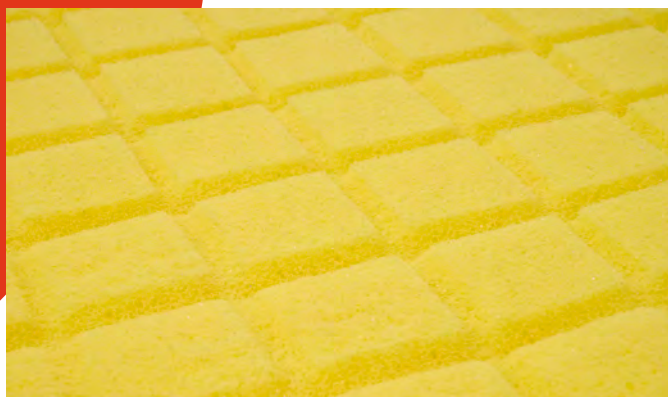

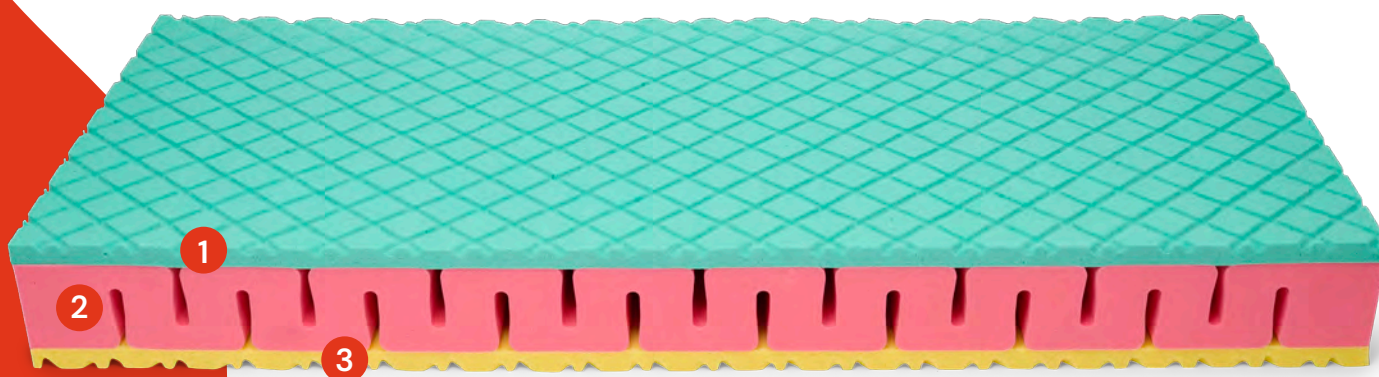

- 2 Waterfoam firm per un **sostegno elevato**
Waterfoam firm for added support

- 3 Inserti in waterfoam a 7 zone differenziate per rispondere al meglio ai vari **punti di pressione, elevata areazione tra un inserto e l'altro**
Waterfoam inserts. 7 different areas to better cater to various pressure points, high ventilation in between each insert

- 4 Waterfoam reticolato ad **altissima traspirabilità**
Highly breathable cross-linked waterfoam

I Nostri Prodotti - *Our Products*

Snake

Struttura Materasso – *Mattress Structure*

Ottimi punti di snodo per reti morotizzate
Great points of junction for electric bed frames

Disponibile in diverse versioni
Available in several models

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 22 cm
Mattress height: 22 cm

1

Memory foam con particelle in grafite, la miglior **schiuma antibatterica**
Memory foam with particles in graphite, the best antibacterial foam

2

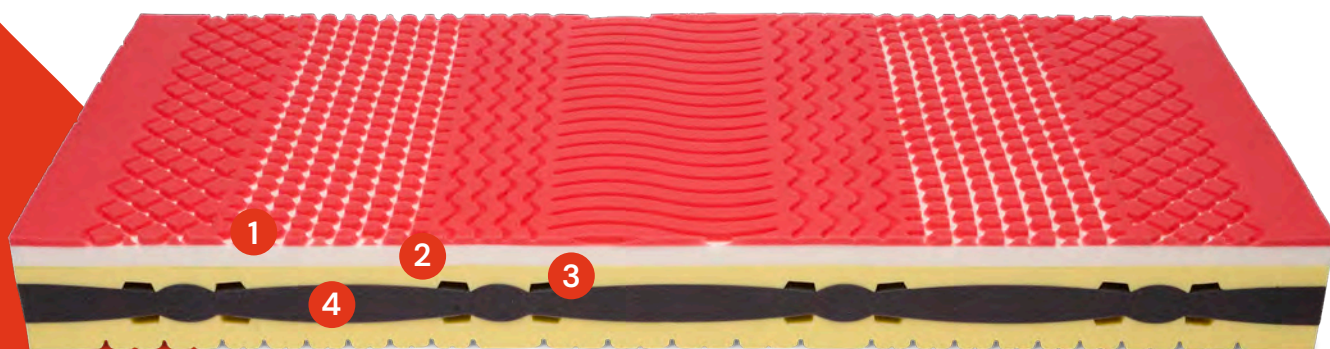

Waterfoam ad elevata **densità, durabilità ed elasticità**
High density, durability and elasticity waterfoam

3

Waterfoam superfresh con ioni d'argento **altamente traspirante**
Waterfoam superfresh, with silver ions, highly breathable

I Nostri Prodotti - *Our Products*

Bumblebee

Struttura Materasso – *Mattress Structure*

9 Zone Differenziate
9 separate areas

Disponibile in diverse versioni
Available in several models

Altezza materasso: h 21 cm
Mattress height: 21 cm

1 Waterfoam superfresh **altamente traspirante**
Waterfoam superfresh highly breathable

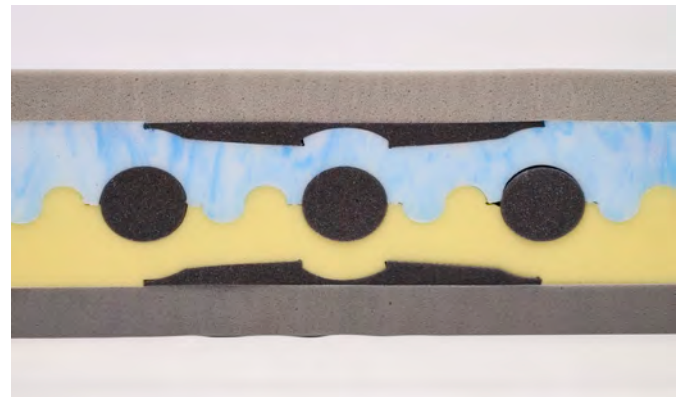

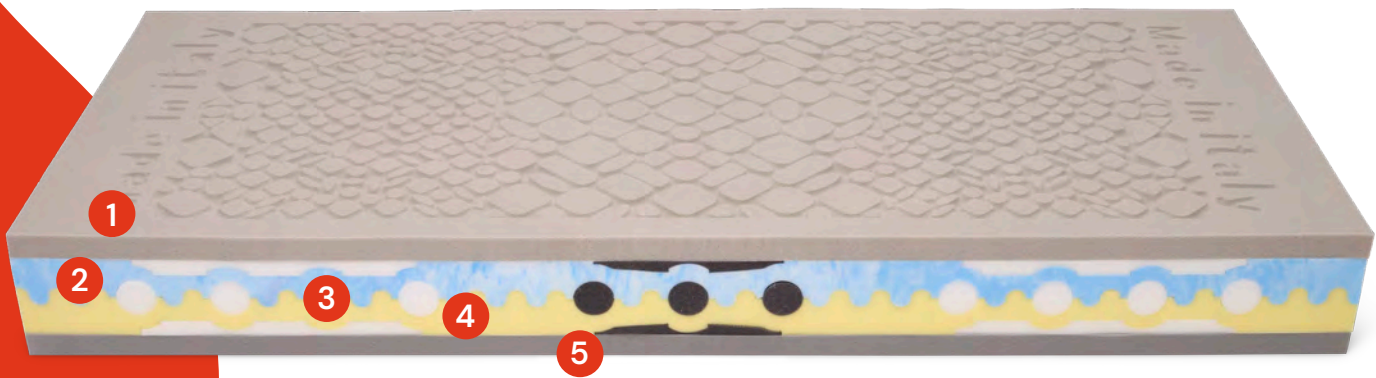

2 Memory foam **automodellante**
Auto-countouring memory foam

3 Waterfoam ad **alta elasticità**
High elasticity waterfoam

4 Waterfoam portante
Supporting waterfoam

I Nostri Prodotti - *Our Products*

Eyes

Struttura Materasso – Mattress Structure

7 Zone Differenziate
7 separate areas

Disponibile in diverse versioni
Available in several models

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 21 cm
Mattress height: 21 cm

1 Memory foam con ioni d'argento che garantiscono elevata **conducibilità termica**
Memory foam with silver ions which guarantee high heat conductivity

2 Waterfoam firm **ergonomico**
Waterfoam firm ergonomic

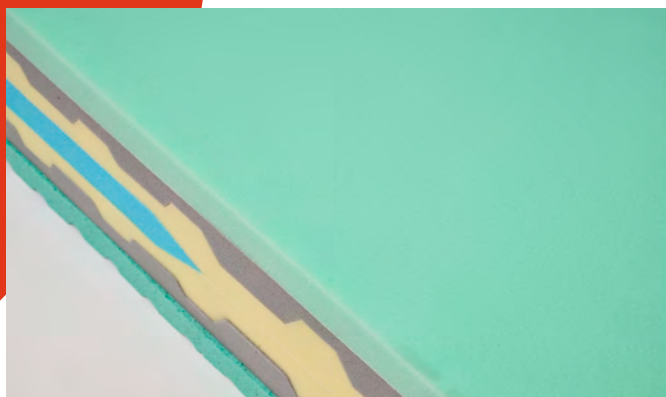

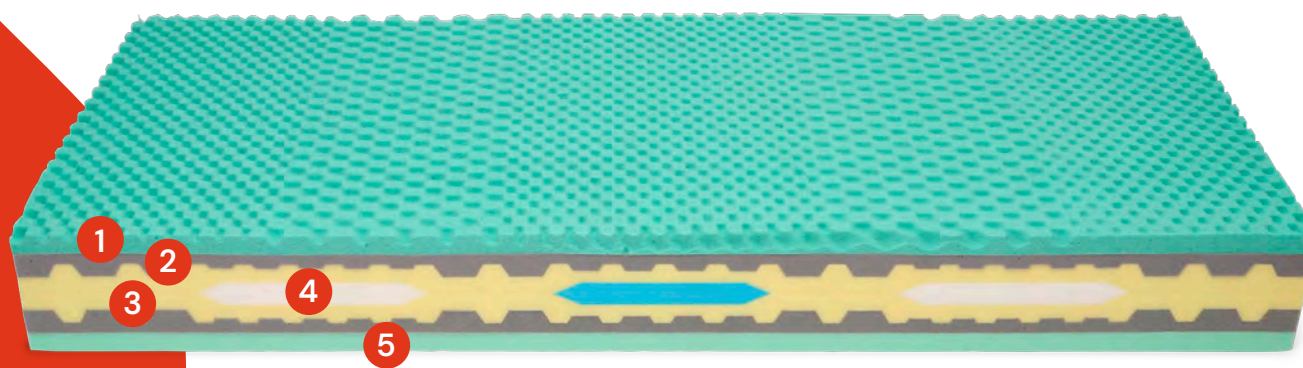

3 Inserti in waterfoam a **diversa elasticità**
Waterfoam inserts with a varying range of elasticity

4 Waterfoam medium **ergonomico**
Waterfoam medium ergonomic

5 Waterfoam soft
Waterfoam soft

I Nostri Prodotti - *Our Products*

Greca Inserto

Struttura Materasso – Mattress Structure

7 Zone Differenziate
7 separate areas

Disponibile in diverse versioni
Available in several models

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 22 cm
Mattress height: 22 cm

- 1 Memory foam grafite con **scavatura massaggiante**
Memory foam graphite massaging function

- 2 Waterfoam ad **alta elasticità**
High elasticity foam

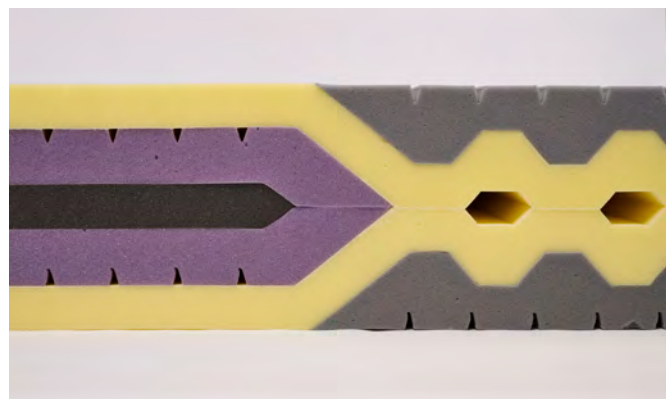

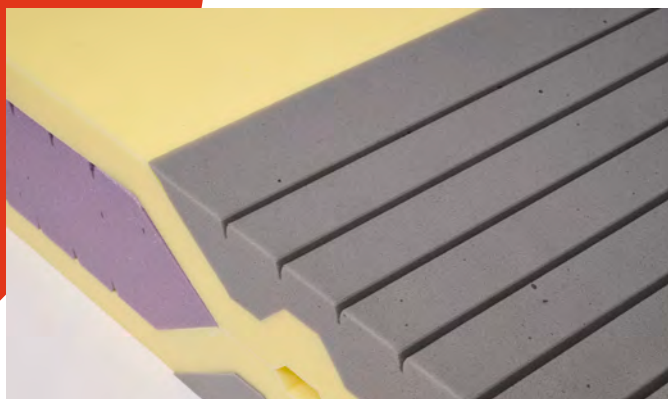

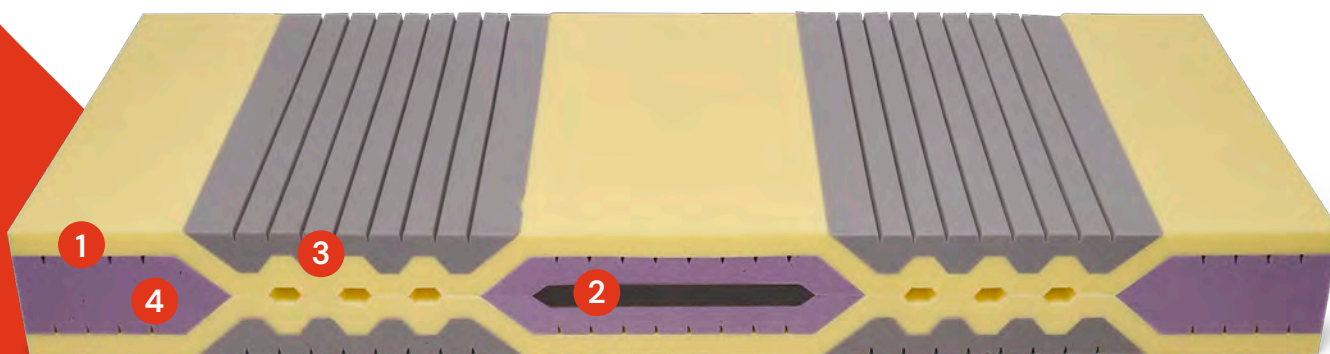

- 3 Waterfoam portante per un **elevato sostegno**
Supporting waterfoam for greater support

- 4 Inserti in waterfoam a **portanza differenziata** per un maggior comfort nei punti di pressione
Waterfoam inserts with varying degrees of support for maximum comfort on pressure points

- 5 Waterfoam soft scavato
Waterfoam soft

I Nostri Prodotti - *Our Products*

Thanos

Struttura Materasso – Mattress Structure

5 Zone Differenziate
5 separate areas

Disponibile in diverse versioni
Available in several models

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 22 cm
Mattress height: 22 cm

1 Waterfoam Medium per un **comfort elevato**. I fori garantiscono una **maggiore traspirabilità**
Waterfoam medium for high comfort. Holes guarantee higher breathability

2 Inserto waterfoam firm a **sostegno del bacino**
Waterfoam firm insert to support the pelvis

3 Waterfoam soft per un'accoglienza ottimale delle spalle/gambe
Waterfoam soft for the best cushioning of shoulders and legs

4 Waterfoam ad **alta portanza**
High-support waterfoam

I Nostri Prodotti - Our Products

Air Dry

Struttura Materasso – Mattress Structure

7 Zone Differenziate
7 different areas

Disponibile nella versione Medium
Available in medium size

Adatto all'uso per esterni
Suitable for outdoor use

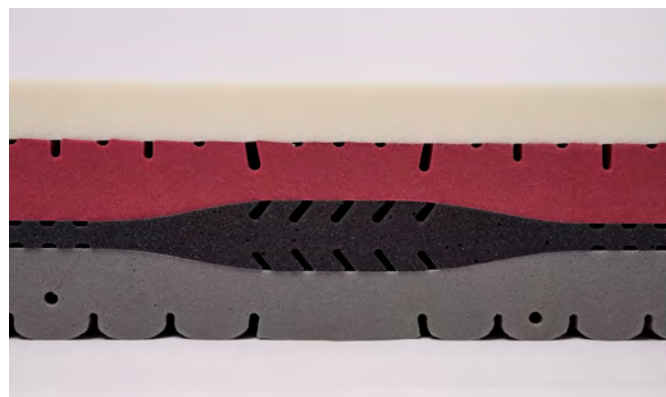

Altezza materasso: h 20 cm
Mattress height: 20 cm

1 Memory foam PET derivante dal recupero delle bottiglie di plastica, la cui caratteristica principale è la **completa traspirabilità** dello stesso grazie alla struttura a celle aperte
Memory foam PET, from the recycling of plastic bottles, whose main characteristic is its high breathability thanks to its open cell structure

2 Waterfoam con particolare **struttura cellulare aperta** che consente all'acqua e all'umidità di passare attraverso senza trattenerla
Waterfoam with a particular open cell structure, which allows water and humidity to go through without retaining it

I Nostri Prodotti - *Our Products*

Elisir

Struttura Materasso – Mattress Structure

7 Zone Differenziate
7 separate areas

Disponibile in diverse versioni
Available in several models

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 21 cm
Mattress height: 21 cm

1 Memory foam **ergonomico ed automodellante**
Ergonomic and self contouring memory foam

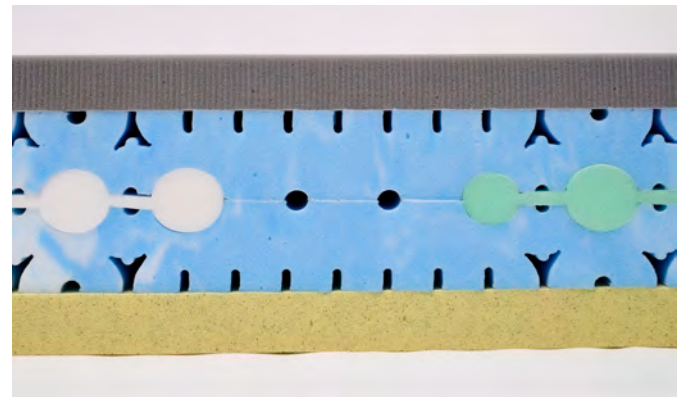

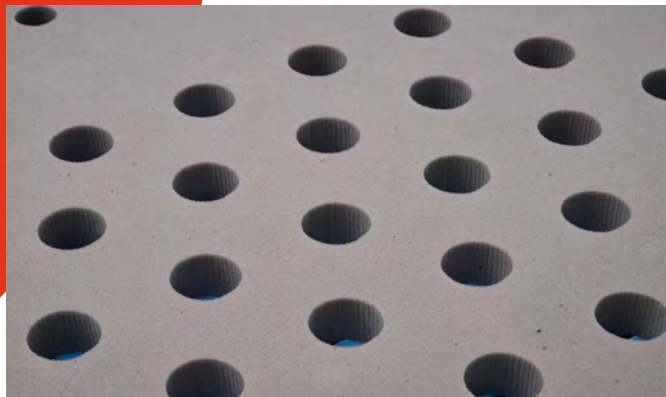

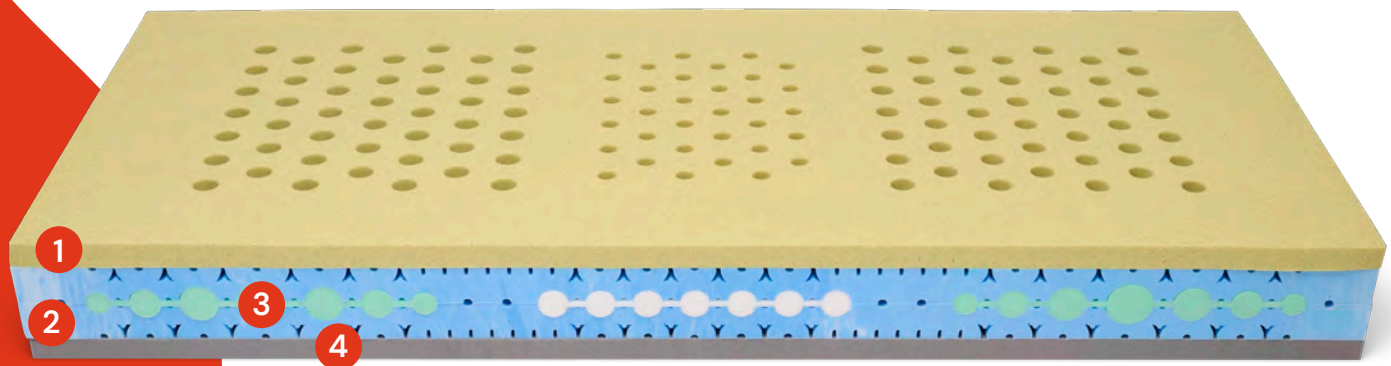

2 Waterfoam medium ad **alta elasticità**
Waterfoam medium with high elasticity

3 Waterfoam firm per un **corretto sostegno**
Waterfoam firm for proper support

4 Waterfoam soft con **scanalature di areazione**
Waterfoam soft with ventilation grooves

I Nostri Prodotti - *Our Products*

Round

Struttura Materasso – Mattress Structure

5 Zone Differenziate
5 different areas

Disponibile in diverse versioni
Available in several models

Foratura verticale
Vertical drilling

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 21 cm
Mattress height: 21 cm

1 Memory foam con **particelle in grafite**
Memory foam with graphite particles

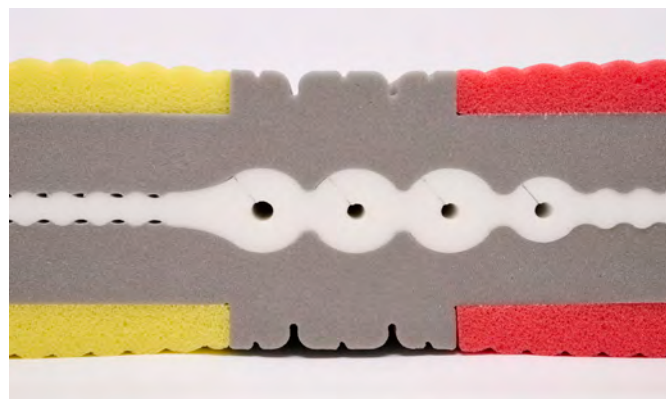

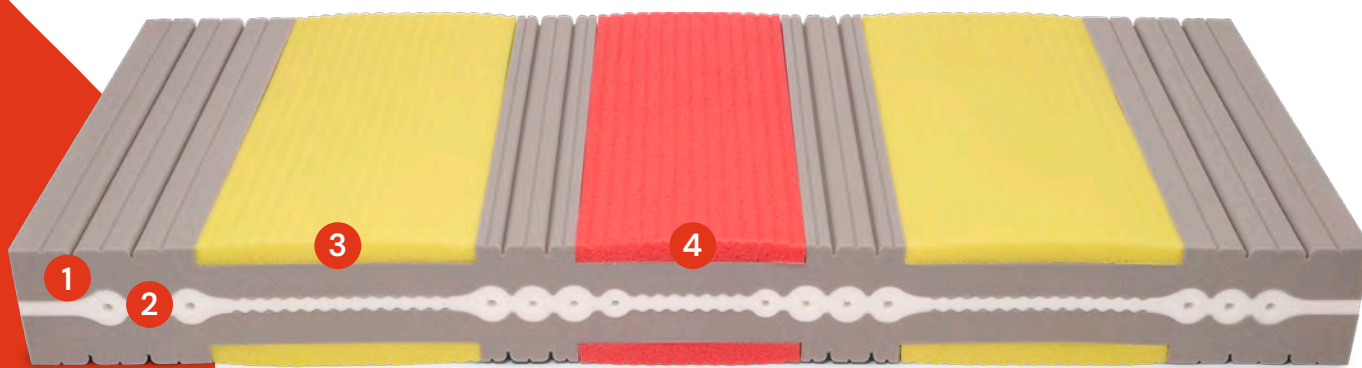

2 Waterfoam ad **alta elasticità**
High-elasticity waterfoam

3 Inserti in waterfoam per una **maggiore accoglienza**
Waterfoam inserts for better contouring

4 Waterfoam soffice con foratura verticale per una **ottimale areazione**
Soft waterfoam with vertical drilling for maximum ventilation

I Nostri Prodotti - *Our Products*

Rome

Struttura Materasso – Mattress Structure

7 Zone Differenziate
7 different areas

Disponibile in diverse versioni
Available in several models

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 21 cm
Mattress height: 21 cm

1 Waterfoam elastico ad **alta performance**
Elastic high performance waterfoam

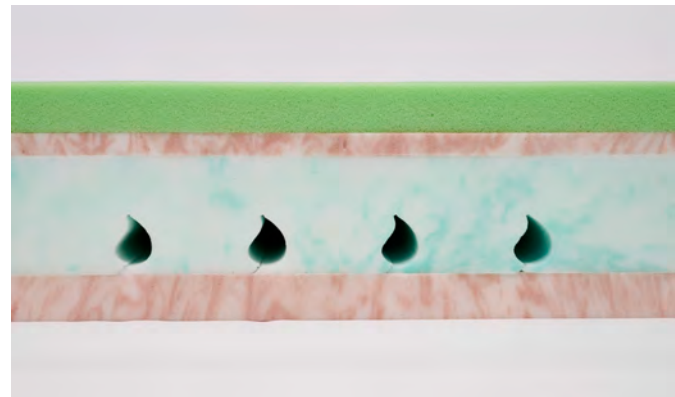

2 Waterfoam firm **ortopedico**
Orthopedic waterfoam firm

3 Waterfoam super **soffice e traspirante**
Super soft and breathable waterfoam

4 Waterfoam soft ad **alta areazione**
High ventilation and soft waterfoam

Leaf

Struttura Materasso – Mattress Structure

Micromolle H.2 cm
Micro springs 2 cm high

Disponibile in diverse versioni
Available in several models

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 21 cm
Mattress height: 21 cm

1 Memory foam vegetale soya per un **contatto con la natura**
Soy memory foam, to get closer to nature

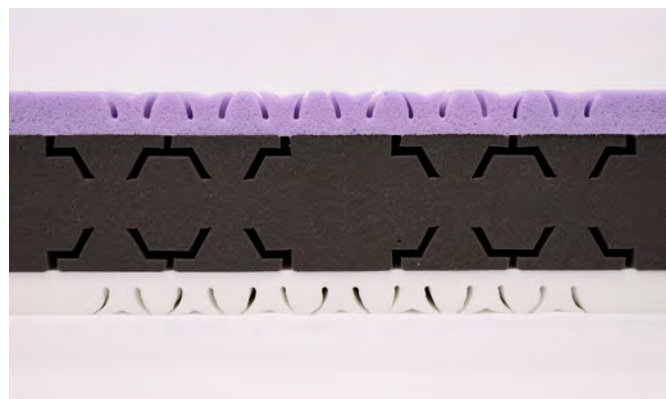

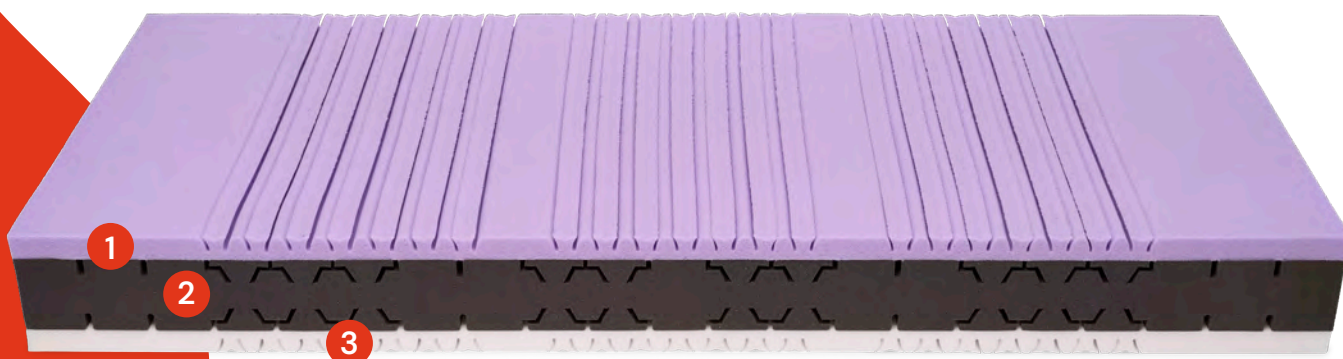

2 1200 micromolle h.2 cm insacchettate per un **miglior sostegno alla colonna vertebrale** e per una completa **traspirabilità dell'aria**
1200 pocketed microsprings 2 cm for better support to your spine and better breathability

3 Waterfoam green naturale per un **riposo salutare**
Waterfoam green natural for a healthier sleep

4 Waterfoam green soft composto da **materie prime rinnovabili**
Waterfoam green soft made from renewable raw materials

I Nostri Prodotti - *Our Products*

Mush

Struttura Materasso – Mattress Structure

7 Zone Differenziate
7 separate areas

Disponibile nella versione Medium
Available in medium size

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 21 cm
Mattress height: 21 cm

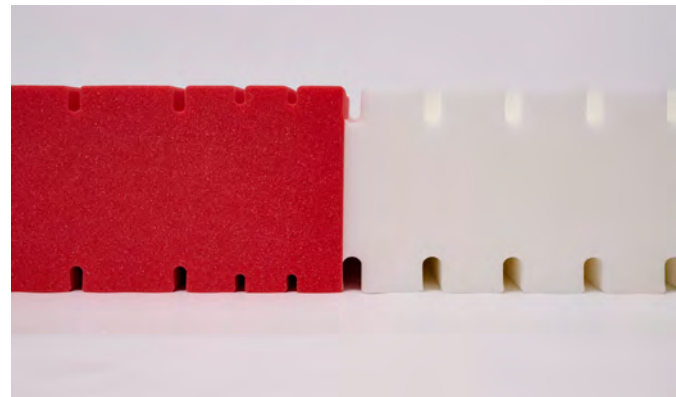

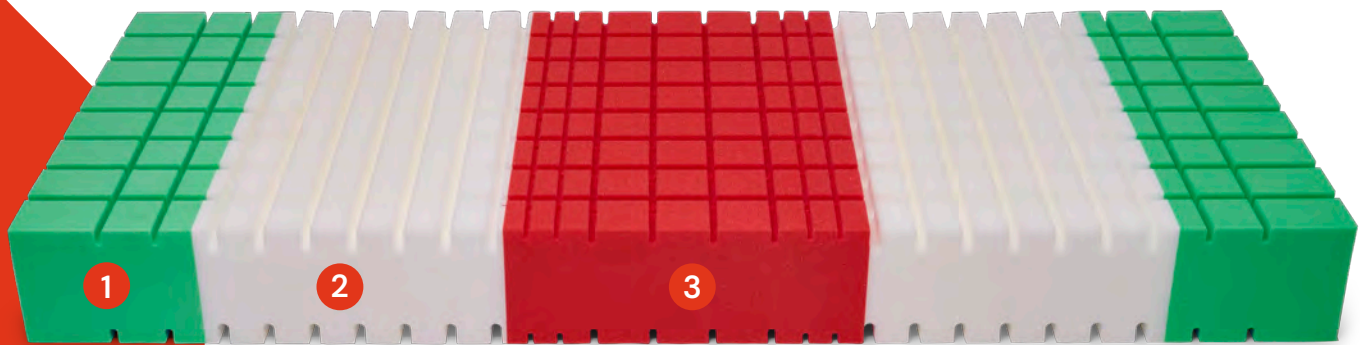

1 Memory foam con particelle in gel per una **sensazione rinfrescante**
Memory foam with gel particles for a cooling feeling

2 Waterfoam ad **elevata densità** e con un **ottima elasticità**
High density waterfoam with high elasticity

3 Waterfoam super soffice con particolare lavorazione per un **effetto massaggiante**
Waterfoam super soft manufactured to ensure a massaging effect

I Nostri Prodotti - *Our Products*

Italy

Struttura Materasso – Mattress Structure

5 Zone Differenziate
5 separate areas

Disponibile nella versione Medium
Available in medium size

Utilizzabile ambo i lati
Can be used on both sides

Altezza materasso: h 20 cm
Mattress height: 20 cm

1 Waterfoam medium per la **zona testa/piedi**
Waterfoam medium for the head/feet area

2 Waterfoam soft per la **zona spalle/gambe**
Waterfoam soft for the shoulder/leg area

3 Waterfoam firm per la **zona bacino**
Waterfoam firm for the pelvis area

800 Springs

Struttura Materasso – Mattress Structure

 800 molle insacchettate a 5 zone differenziate
800 pocket springs with 5 differentiated zones

 Disponibile in diverse versioni
Available in several models

 Utilizzabile ambo i lati
Can be used on both sides

 Altezza materasso personalizzabile
Customizable mattress height

1 Memory foam pneumatico per un **avvolgente riposo**
Pneumatic Memory Foam – Provides an enveloping rest experience

2 800 molle indipendenti insacchettate a 5 zone per **distribuire il peso in maniera uniforme**
800 Individually Encased Pocket Springs in 5 Zones – Ensures uniform weight distribution

3 Waterfoam firm per un **sostegno adeguato**
Firm Waterfoam – Offers adequate support

4 Waterfoam soft per una **miglior ergonomia**
Soft Waterfoam – Enhances ergonomics

I Nostri Prodotti - *Our Products*

1600 Springs

Struttura Materasso – Mattress Structure

 1600 molle insacchettate a 5 zone differenziate
1600 pocket springs with 5 differentiated zones

 Disponibile in diverse versioni
Available in several models

 Utilizzabile ambo i lati
Can be used on both sides

 Altezza materasso personalizzabile
Customizable mattress height

1 Memory foam massage a **5 zone differenziate**
Memory Foam Massage – Designed with 5 differentiated zones

2 1600 molle indipendenti insacchettate a 5 zone per **distribuire uniformemente il peso corporeo**
1600 Individually Encased Pocket Springs in 5 Zones – Ensures uniform body weight distribution

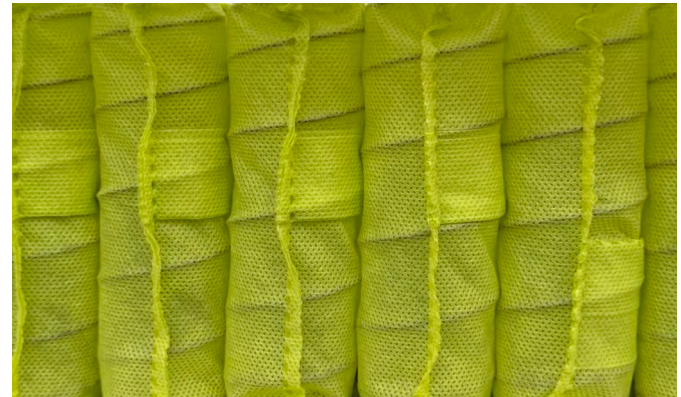

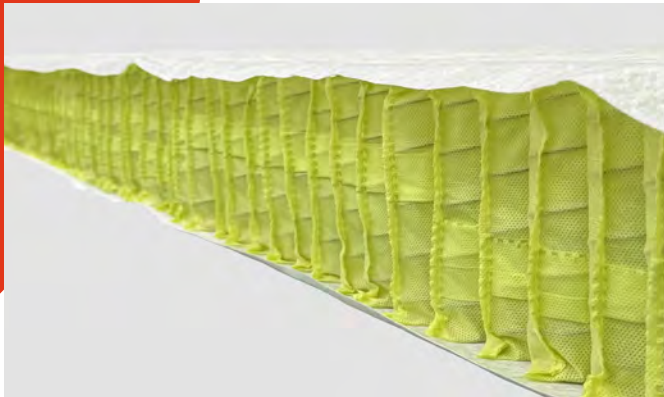

3 Waterfoam firm per un **sostegno adeguato**
Firm Waterfoam – Provides adequate support

4 Waterfoam soft lavorato a **5 zone massaggianti**
Soft Waterfoam with 5 Massaging Zones

Box Eco Friendly

Struttura Materasso – *Mattress Structure*

1600 molle insacchettate riciclate
1600 recycled pocket springs

Disponibile in diverse versioni
Available in several models

Prodotto con materiali 100% eco friendly
Made from 100% eco-friendly materials

Altezza materasso personalizzabile
Customizable mattress height

1

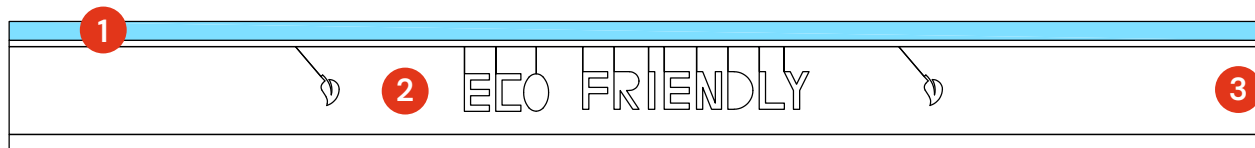

Memory foam touch **riciclato** (PET)
Recycled PET Memory Foam Touch

2

1600 molle indipendenti insacchettate a 5 zone per **distribuire uniformemente il peso corporeo**
1600 Individually Encased Pocket Springs in 5 Zones – Ensures uniform body weight

3

Waterfoam eco friendly con spiccate caratteristiche di ergonomia e traspirabilità
Eco-Friendly Waterfoam – Offers outstanding ergonomic support and breathability
